CAREER OBJECTIVE

As a passionate and dedicated front-end developer, I am eager to apply my skills and knowledge to a dynamic and innovative team. I aim to leverage my expertise in HTML, CSS, JavaScript, and modern frameworks like React.js to design user-friendly, responsive, and visually engaging websites. With a focus on crafting efficient and scalable solutions, I strive to optimize web performance, enhance user experiences, and collaborate with cross-functional teams. I seek a challenging role where I can grow as a professional and contribute to the company's success by applying my technical skills, creativity, and problem-solving abilities to real-world projects.

SKILLS

- Programming: Java, JavaScript
 - Design Tools: Figma, Adobe XD, Canva
 - Front-End: HTML, CSS
 - Frameworks: React.js, Bootstrap, Tailwind CSS
 - Version Control: Git
-

INTERNSHIP

Pofi Technologies Private Limited

June 2023 - July 2023

Full-Stack Developer

Developed a responsive CRUD web application using Django, focusing on designing intuitive user interfaces and dynamic front-end components. Implemented secure user authentication and seamless navigation, enhancing user experience. Optimized UI elements for cross-device compatibility, boosting engagement. Utilized Django's templates to render data efficiently and streamline front-end performance.

Indie Spirit Technologies

August 2022 - August 2022

Web Developer

Gained practical experience in JavaScript by developing a responsive Library Management System. Showcased front-end development and UI/UX skills by designing intuitive interfaces and implementing interactive components. Collaborated with a team to enhance user experience and optimized system efficiency by 20% through streamlined navigation and responsive design.

RELEVANT PROJECT

E-Commerce(MERN)

[🔗StYyLle Hive](#)

Tech Stack: MongoDB, Express.js, React.js, Node.js, API, Vercel, JWT

Designed and implemented a secure admin dashboard with full CRUD capabilities for products and users, plus real-time order management. Built JWT-based authentication and role-based access control to protect admin and user routes. Developed a responsive React.js frontend, featuring product listings, detailed product pages, shopping cart, and checkout flows. Created a Node.js/Express.js API layer backed by MongoDB for fast, reliable data persistence and retrieval. Integrated client and server via RESTful endpoints, ensuring seamless communication between UI and database. Deployed the entire application on Vercel for continuous delivery.

MoiveHub

[🔗MovieHub](#)

Tech Stack: HTML5, CSS3, React.js, OMDB API

Developed MovieHub, a web application for discovering movies, TV shows, anime, and web series using React.js, React Router, and the OMDB API. Integrated real-time data fetching with Axios to implement dynamic search functionality and seamless API interactions. Designed interactive UI components and a responsive, user-friendly interface to enhance browsing experiences. Linked IMDb pages for detailed movie information, ensuring smooth navigation across devices.

Recipe Finder

[!\[\]\(529949c2c3dadbaa4e538e8c643454bc_img.jpg\) Recipe Finder](#)

Tech Stack: HTML5, CSS3, JavaScript, TheMealDB API

Developed a dynamic Recipe Finder web application that allows users to search for recipes based on ingredients, cuisine, and meal type. Integrated TheMealDB API to fetch real-time recipes, displaying meal details such as images, ingredients, and cooking instructions. Designed a responsive and user-friendly interface for seamless navigation.

Flower Shop

[!\[\]\(339a16584d5da0f0a3ca4e9ec17bf6a1_img.jpg\) FreshFlowers](#)

Tech Stack: HTML5, CSS3, JavaScript (Frontend) | Netlify (Hosting)

Developed an e-commerce web application for an online flower shop, offering a seamless shopping experience with a visually appealing and responsive design. Users can browse a variety of flowers, view product details, and navigate through a clean, modern UI. Deployed the project on Netlify for fast and reliable hosting.

Plant Website - UI/UX Design

[!\[\]\(6059a5aa8b4ca7bb793408023d6c6e42_img.jpg\) GreenMind](#)

Tool Used: Figma

Designed a modern and visually appealing single-page website for a plant-related business. Focused on creating a user-friendly interface with an elegant layout, smooth navigation, and a nature-inspired color scheme. Ensured a responsive and intuitive design to enhance user experience across devices.

E-Commerce Website - Responsive UI/UX Design

[!\[\]\(e3275251d0893157c3584e20c81dc3ba_img.jpg\) FIFASH](#)

Tool Used: Figma

Designed a fully responsive e-commerce website with a mobile-first approach, ensuring a seamless and consistent user experience across desktop, tablet, and mobile devices. Focused on creating an intuitive layout, fluid navigation, and visually appealing UI elements to enhance accessibility, user engagement, and conversion rates.
